I just began reading this pdf. It is actually written in straightforward words instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding. (Jensen Bins)

Oosik Publishing, United States, 2014. Paperback. Book Condition: New. 224 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****. When the company where he worked was acquired in the midst of one of the country's most severe recessions, Mike Dillon found himself without a job. It's a story common to many, but Dillon's response was far from expected. Instead of searching for new employment, he bought a bicycle, loaded it with camping gear and pedaled alone across the United States. Changing Cadence recounts the story of Dillon's travels through the farming and fishing communities of the South; the ranch lands and Bible Belt of Texas; the lonely deserts of New Mexico and Arizona; and finally up the coast of California. Along the way, he crosses paths with others who share his need for wanderlust: the brokenhearted woman from London exploring the West alone on a motorcycle; the pair of college students walking across the country in support of the Tea Party; the woman hiking the circumference of the country on a prosthetic leg (along with her three-legged dog); and fellow cyclists like Don, a middle-aged, yarn-spinning, former Marine with a grey ponytail and a penchant for McDonald's Egg McMuffins. Over the course of more than 3,500 miles, Dillon rediscovers himself, his family and his country, and learns that it's never too late for a little adventure.
