*This publication is really gripping and exciting. It really is basic but unexpected situations in the 50 % in the book. It is extremely difficult to leave it before concluding, once you begin to read the book.

Image Comics. Paperback. Book Condition: new. BRAND NEW, Dark Engine: Volume 1: The Art of Destruction, Ryan Burton, John Bivens, "If you're a fan of Conan and Red Sonja and wish they'd appear in a Lovecraftian tale, this is probably the book for you." (Kirkus). The world is cracked and in ruin. The air is full of dead men's ashes, fallen colossi smother the earth with their decayed husks, and infectious monsters roam freely. In their desperation, a group of alchemists have created a killer named Sym from obscene magic, outfitting her with an engine that will allow her to travel back in time to stop whatever it was that made their world so. But the alchemists don't realize that the engine is sentient, that their unstoppable killer is powered by the seed of their destruction. Newcomers Ryan Burton and John Bivens present the opening arc to what industry veteran JH Williams III (Sandman: Overture, Batwoman, Promethea) describes as "an otherworldly horrific poetic movement that is immediately immersive." It collects Dark Engine numbered 1-4.
