*Simply no phrases to clarify. It is really basic but surprises from the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

The New Press. Paperback. Book Condition: new. BRAND NEW, Devil in Dover: An Insider's Story of Dogma V. Darwin in Small-Town America, Lauri Lebo, The page-turning story behind the 2005 intelligent design case in Dover, Pennsylvania-the case that made front-page news around the world. "What happened in Dover is a tiny sliver, a broken shard of glass mirroring what plays out across the country. A war of fundamentalist Christian values versus secularism. A battle between evangelical fanaticism and tolerance."-from The Devil in Dover In December 2004, following the Dover area school board's decision to teach intelligent design in ninth-grade biology classrooms, eleven parents sued, sparking a federal constitutional challenge. Lauri Lebo, a small-town reporter who covered the trial, knows not just the legal case and science, but the people on all sides of the divisive battle. In The Devil in Dover, Lebo traces the compelling backstory of this pivotal case described by some as a perfect storm of religious intolerance, First Amendment violations, and an assault on American science education. In a community divided across unexpected lines, the so-called activist judge, a George Bush-appointed Republican, eventually condemned the school board's decision as one of "breathtaking inanity." Lebo follows the story through its surprising twists, pondering whether this was a national war playing out in a small town or a small-town political battle playing out on the national stage. As a "local girl" with a fundamentalist Christian father, Lebo provides an account that is both fascinating and moving, as she thoughtfully probes one of America's most divisive cultural conflicts-and the responsibility journalists have when covering such a controversial story.
