The usual benefits include culinary medical but garlic is also known to mankind as a tool in welcoming good luck, protecting itself against evil and warding off vampires! Garlic is a member of the onion genus and is known in the scientific community as Allium sativum. It is a close relative to the leek, chive, shallot, rakkyo and of course onion. The head of the garlic plant is the part that is generally used and referred to as garlic; each bulb consists of many small and independent, fleshy sections known as cloves. Both the bulb and the cloves are enclosed in premature, almost transparent sheets of pure white, off-white or purple/pink color. The cloves are the part that are usually consumed (raw or cooked) or used for medicinal purposes and are characterized by a firm texture. As soon as garlic hits the palate, it gives a hot, pungent taste with continuous...
